JBS CERTIFICATION MARK PROGRAMME

The general policies of the JBS Certification Mark Programme are as follows:

- The JBS provides certification services for manufacturers participating in the programme and licensed to use the gazetted JBS Certification Marks to indicate conformity with Jamaican Standards.
- Where feasible, programmes will be developed to meet special requirements of the submitter.
- JBS certification is provided in the interest of maintaining agreed-upon standard requirements. Where applicable, certification may form the basis for acceptance by inspection authorities responsible for enforcement of regulations.
- In performing its functions in accordance with its policies, JBS does not assume or undertake to discharge any responsibility of the manufacturer or any other party.

Participants in the programme should note that in the event of failure to resolve an issue arising from interpretation of requirements, there is a formal appeal procedure.

Further information concerning the details of JBS Certification Mark Programme may be obtained from the Jamaica Bureau of Standards, 6 Winchester Road, Kingston 10.

Declared by the Bureau of Standards Jamaica to be a standard specification pursuant to section 7 of the Standards Act 1969.

First published **Month 2022**

This standard specification was circulated in draft form for thirty (30) days non-objection under the reference **DJS CRS 48: 2022**.

Jamaican Standards establish requirements in relation to commodities, processes and practices, but do not purport to include all the necessary provisions of a contract.

The attention of those using this standard specification is called to the necessity of complying with any relevant legislation.

Amendments

3 Terms and definitions	2
4 General requirements	4
5 Specific requirements	4
5.1 Requirements for properties of liquid coatings	4
5.2 Requirements for properties of dried film	5
5.2.1 Accelerated weathering resistance	5
5.2.2 Fungal and algal resistance	5
6 Applicability and appearance	6
6.1 General properties	6
7 Packaging and labelling requirements	6
Annex A (informative) Recommended gloss level for coatings	8

National foreword

This standard is an adoption and is identical to **CRS 48: 2022** Paints Solvent Borne Coatings – Specification published by the CARICOM Regional Organisation for Standards and Quality (CROSQ).

Scope of the standard

This standard establishes requirements for liquid solvent-borne coatings and primers intended for use on interior and exterior surfaces. It also includes requirements for performance and labelling of solvent-borne top coats and primers.

It applies to solvent-borne coatings with alkyd and modified alkyd resins including decorative and architectural coatings.

This standard does not apply to stains, varnishes, glazing compounds, lacquers, putties, water-borne coatings and industrial protective coatings.

NOTE: Solvent-borne coatings covered under this standard are intended for use on wood, metal, bituminous substrates, plastic and glass but are not limited to these applications.

Where the words 'International Standard' appear, referring to this standard, they should be read as 'Jamaican Standard'.

Where reference is made to informative and normative annexes the following definitions should be noted:

- Informative Annex – gives additional information intended to assist in the understanding or use of the document. They do not contain requirements.
- Normative Annex – gives provisions additional to those in the body of a document. They contain requirements.

Users should note that all standards undergo revision from time to time and that any reference made herein to any standard implies its latest edition, unless otherwise stated.

This standard is voluntary.

Acknowledgment

Acknowledgement is made to the CARICOM Regional Organisation for Standards and Quality (CROSQ) for permission to adopt **CRS 48: 2022**.
