JBS CERTIFICATION MARK PROGRAMME

The general policies of the JBS Certification Mark Programme are as follows:

- The JBS provides certification services for manufacturers participating in the programme and licensed to use the gazetted JBS Certification Marks to indicate conformity with Jamaican Standards.
- Where feasible, programmes will be developed to meet special requirements of the submitter. Where applicable, certification may form the basis for acceptance by inspection authorities responsible for enforcement of regulations.
- In performing its functions in accordance with its policies, JBS will not assume or undertake any responsibility of the manufacturer or any other party.

Participants in the programme should note that in the event of failure to resolve an issue arising from interpretation of requirements, there is a formal appeal procedure.

Further information concerning the details of the JBS Certification Mark Programme may be obtained from the Bureau of Standards, 6 Winchester Road, Kingston 10.

National foreword

This standard is an adoption and is identical DJS ISO 21384-4: 2025 Unmanned aircraft systems – Part 4: Vocabulary published by the International Organization for Standardization (ISO).

This document defines terms and definitions relating to unmanned aircraft systems that are widely used in science and technology. Note that while the standard uses the term “Unmanned Aircraft Systems,” its use is extended to encompass related terminology such as “Uncrewed Aerial Systems,” “Uncrewed Aircraft Systems,” and other inclusive variations, in line with evolving best practices and inclusive language considerations.

This standard is voluntary.

Committee representation

Acknowledgment

Acknowledgement is made to the International Organization for Standardization (ISO) for permission to adopt DJS ISO 21384-4: 2025 Unmanned aircraft systems- Part 4: Vocabulary.
